Much more diverse mission design than Mafia III, and longer than its DLCs for a fraction of the price. Funnier than Grand Theft Auto V. Better shooting mechanics than Just Cause 3. Superior sound design to the one from Saints Row IV. Not to mention better facial animations than Mass Effect Andromeda. 9.3/10 Get it now. what a joke --. what the fucc did i just play 5/5 very russian. Pretty good music.. quot;you look too sober, have VODKA" *enters intense seisuring* this is a unique game, if you have a few cents extra, why the hell not 7/10. It was meant to be funny but it is not funny. Just don't buy it.. Damn, i love this game!
